

INTELLIGENCE INFORMATION HANDLING COMMITTEE
of the
UNITED STATES INTELLIGENCE BOARD

Office of the Chairman

Attachment 1
to IHC-MM-388

26 January 1973

Lt. Gen. George M. Seignious, II
Director, Joint Staff
Room 2E936
Pentagon

Dear General Seignious,

Among the responsibilities of the Intelligence Information Handling Committee (IHC) of the United States Intelligence Board (USIB) is that of promoting effective processing and transmission of intelligence and intelligence information for use by decision makers in operational and policy-making organizations. The use of intelligence and requirements for intelligence information in the systems and centers which serve the Joint Staff are of particular interest to the IHC.

The IHC is interested primarily in the methods and procedures applied in acquiring and processing intelligence data in the NMIC and JRC and the intelligence flow to the NMCS and WWMCCS for use by the Joint Chiefs of Staff and the Unified and Specified Commands. The feedback of requirements from operational elements to the intelligence centers is also of interest because of the impact it has on the intelligence information handling process.

It is requested that arrangements be made for us to receive briefings on the current operations and future plans of the following:

NMCS (National Military Command System)

WWMCCS (Worldwide Military Command & Control System)

NMIC (National Military Intelligence Center) and the,

JRC (Joint Reconnaissance Center)

STAT If possible we would like to have these briefings on
14 February 1973 from 0900 to 1200 hours. [redacted]
[redacted] of my staff can be reached on [redacted]
to provide any additional information you may require.

Yours truly,

[redacted]

Chairman
